Experience

Software Developer — GDKN (Remote, Bhopal)

Dec 2022 — June 2025

- Developed and maintained multiple full-stack applications across Angular/Node.js and React/Express ecosystems.
- Integrated REST APIs and WebSocket communication for real-time features.
- Collaborated with cross-functional teams to deliver scalable and secure solutions.
- Received "Employee of the Month" recognition 6 times for exceptional performance.

Teaching Assistant (Intern) — FunctionUp (Remote)

Sep 2022 — Dec 2022

- Guided students on backend technologies including Node.js, MongoDB, and AWS.
- Resolved technical doubts and provided mentorship during live coding sessions.

Professional Projects

KeepFluent — Full Stack Developer (Jan 2023 — June 2025)

- Built RESTful APIs and WebSocket services with Express.js and Socket.IO.
- Developed front-end using Angular and mobile version with Ionic framework.
- Designed responsive UI using Bootstrap and managed SQL database operations.

E-Notary On Call — Frontend Developer (Oct 2024 — June 2025)

- Developed cross-platform mobile app using React Native.
- Integrated APIs and optimized app performance across devices.
- Focused on responsive UI/UX and clean, modular codebase.

Education
